COMMENT RÉUSSIR MON ENTRETIEN D'EMBAUCHE

Les candidats ne se sentent pas toujours à l'aise pour se présenter lors des entretiens d'embauche. Nous voulons aider les participants à se sentir prêts, savoir comment marquer des points, avoir préparé leur pitch et les arguments pour convaincre.

CYBERSECURITY ACT & TECHNICAL STANDARDIZATION

Nowadays, regulations and standardization play a key role in the process of digital transformation. The field of cybersecurity is well-regulated and aims to provide a high level of security and trust in ICT products, services and processes. This course gives a general introduction of certification schemes developed in the frame of this EU Regulation.

This training will make the participants aware of the Regulation (EU) 2019/881 (Cybersecurity Act – CSA), which aims to provide a high level of cybersecurity and trust in ICT products, services and processes in the EU. The certification schemes developed in the frame of this Regulation (EUCC – ICT products, EUCS – Cloud services) will be introduced.

It will provide an overview of the standardization developments supporting cybersecurity and the CSA (introduction to technical standardization, presentation of the national standardization commission “Cybersecurity”, examples of standards in support of the CSA).

IMPROVE YOUR STAKEHOLDER COMMUNICATION USING THE DISC METHODOLOGY

Information technology and digital skills continue to gain in importance in today's business. As such, strong ICT profiles are rare to find, and very sought after. Technical skills, however, are only one side of the coin. Next to being technology-savvy and IT-adept, the human facet remains essential to your professional progression and career. Understanding the client and their needs, communicating in an effective way, and ultimately selling your skills, your project and/or your products and services are just as crucial. This 4-hour workshop aims at equipping you with the ability to better understand yourself, and to adapt to the various stakeholders, especially non-technical, in order to be effective and successful in your business undertakings.
